Eagle Materials Inc. Reports Continued Strong Growth in Sales Volumes and Earnings in the Third Quarter

DALLAS--(BUSINESS WIRE)-- Eagle Materials Inc. (NYSE:EXP) today reported financial results for the third quarter of fiscal 2014 which ended December 31, 2013. Notable items for the quarter in relation to the prior-year's third quarter include:

- Record third guarter Revenues of \$228.8 million, up 39%
- Earnings before interest and income taxes of \$53.3 million, up 71%
- Earnings per diluted share of \$0.63, up 70%
- Reduced outstanding debt by 20%

Sales volumes improved across all business lines, with cement volumes setting a third quarter record of over 1.1 million tons sold. Net sales prices also strengthened across all businesses, with wallboard sales prices increasing 19% over the prior year's third quarter. Quarterly revenue and earnings improvement also reflects the acquisition of assets, primarily two cement plants in Missouri and Oklahoma (the Acquired Assets) on November 30, 2012.

Cement, Concrete and Aggregates

Operating earnings from Cement for the third quarter were \$26.0 million, a 57% increase from the same quarter a year ago. The earnings increase resulted from increased sales volumes and average net cement sales prices.

Cement revenues for the quarter, including joint venture and intersegment revenues, totaled \$105.6 million, 41% greater than the same quarter last year. The revenue improvement reflects a 36% increase in our third quarter Cement sales volume, including sales volumes attributable to the Acquired Assets. Our average net cement sales price this quarter was \$87.01 per ton, 5% higher than the same quarter last year.

Concrete and Aggregates reported a \$3.7 million operating loss for the third quarter. The quarterly loss was impacted by start-up costs associated with our new frac sand business of approximately \$2.1 million and the settlement of a litigation matter in California for \$0.5 million.

Gypsum Wallboard and Paperboard

Gypsum Wallboard and Paperboard's third quarter operating earnings of \$37.4 million were up 51% compared to the same quarter last year. Improved Gypsum Wallboard net sales prices and sales volumes were the primary drivers of the quarterly earnings increase.

Gypsum Wallboard and Paperboard revenues for the third quarter totaled \$123.9 million, a 24% increase from the same quarter a year ago. The revenue increase reflects primarily higher wallboard average net sales prices and improved gypsum wallboard and paperboard sales volumes.

The average gypsum wallboard net sales price for the third quarter was \$143.40 per MSF, 19% greater than the same quarter a year ago. Gypsum Wallboard sales volume for the quarter of 584 million square feet (MMSF) represents a 13% increase from the same quarter last year. The average Paperboard net sales price for this quarter was \$504.08 per ton, 5% greater than the same quarter a year ago. Paperboard sales volumes for the quarter were 66,000 tons, 2% higher than the same quarter a year ago.

Details of Financial Results

For information regarding the results of operations for the Acquired Assets for certain periods prior to November 30, 2012, including pro forma financial information that combines the results of operations for Eagle and the Acquired Assets, please see our Form 8-K/A filed on April 26, 2013.

The prior year's third quarter results include Acquisition and Litigation Expenses related primarily to the acquisition of the Acquired Assets and litigation costs related to our lawsuit against the IRS. The total impact from these non-routine items was

\$2.8 million (pre-tax), or \$0.06 per diluted share (after-tax).

Texas Lehigh Cement Company LP, one of our cement plant operations, is conducted through a 50/50 joint venture (the "Joint Venture"). We utilize the equity method of accounting for our 50% interest in the Joint Venture. For segment reporting purposes we proportionately consolidate our 50% share of the Joint Venture's revenues and operating earnings, which is consistent with the way management organizes the segments in the Company for making operating decisions and assessing performance.

In addition, for segment reporting purposes, we report intersegment revenues as a part of a segment's total revenues. Intersegment sales are eliminated on the income statement. Refer to Attachment 3 for a reconciliation of the amounts referred to above.

These statements are not historical facts or guarantees of future performance but instead represent only the Company's belief at the time the statements were made regarding future events which are subject to certain risks, uncertainties and other factors many of which are outside the Company's control. Actual results and outcomes may differ materially from what is expressed or forecast in such forward-looking statements. The principal risks and uncertainties that may affect the Company's actual performance include the following: the cyclical and seasonal nature of the Company's business; public infrastructure expenditures; adverse weather conditions; the fact that our products are commodities and that prices for our products are subject to material fluctuation due to market conditions and other factors beyond our control; availability of raw materials; changes in energy costs including, without limitation, natural gas, coal and oil; changes in the cost and availability of transportation; unexpected operational difficulties, including unexpected maintenance costs, equipment downtime and interruption of production; inability to timely execute announced capacity expansions; difficulties and delays in the development of new business lines; governmental regulation and changes in governmental and public policy (including, without limitation, climate change regulation); possible outcomes of pending or future litigation or arbitration proceedings; changes in economic conditions specific to any one or more of the Company's markets; competition; announced increases in capacity in the gypsum wallboard and cement industries; changes in the demand for residential housing construction or commercial construction; general economic conditions; and interest rates. For example, increases in interest rates, decreases in demand for construction materials or increases in the cost of energy (including, without limitation, natural gas, coal and oil) could affect the revenues and operating earnings of our operations. In addition, changes in national or regional economic conditions and levels of infrastructure and construction spending could also adversely affect the Company's result of operations. With respect to our acquisition of the Acquired Assets as described in this press release, factors, risks and uncertainties that may cause actual events and developments to vary materially from those anticipated in forward-looking statements include, but are not limited to, the risk that we may not be able to integrate the Acquired Assets in an efficient and cost-effective manner with our other assets and operations, the possible inability to realize synergies or other expected benefits of the transaction, the possibility that we may incur significant costs relating to transition or integration activities or repair and maintenance of the Acquired Assets, the discovery of undisclosed liabilities associated with the business, the need to repay the indebtedness incurred to fund the acquisition and the fact that increased debt may limit our ability to respond to any changes in general economic and business conditions that occur after the acquisition. These and other factors are described in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2013 and in its Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2013.
